

XL Joinery - Our Doors

Our Doors

We're XL

Our doors define homes

We're XL Joinery, and we've been in the door business for over 25 years.

A quarter century working with wood, helping transform rooms and spaces for the better. Our doors help define our homes, and whether your interior suits timeless solid oak, or a bright, contemporary splash of colour, there's something for you in our carefully selected range.

Over that quarter century we've learnt a thing or two. Skills and experience gathered from the craftsmen, carpenters, builders and joiners who see our product through from rough and sawn to finished and hung. Our people are experts in their craft, combining time-honoured tools and modern technology to guarantee excellence. They've taught us to focus on quality, on materials and on provenance. Because when we know where our wood comes from, and exactly how to use it, we create better doors, and better design too.

Community is important to us. Not just the XL Joinery family, though we're proud to employ some of the best in the business. But a community connected worldwide by woodwork. Our timber makes quite a journey to get here, so it's vital that we know exactly where it's from.

We use FSC® and PEFC certification, with cutting edge systems to ensure everything is tracked and traceable. And we're engaged with sustainability at home too. One of our biggest achievements has been to go fully Carbon Neutral, an initiative driven by our passionate team members.

Our Yorkshire headquarters has one of the largest stockholdings in the UK, and our team handle everything from quality control, after-sales service and delivery in-house. We work with a hand-picked network of builders merchants and retailers, providing nearly half a million doors a year for everything from personal renovation projects to ground breaking new developments.

Alongside old favourites and classic doors, we've updated our collection to feature innovative and striking new finishes, each inspired by some of the most talented designers and joiners in the business. And if you can't find what you're looking for at first glance, just remember you're dealing with people who know their craft. With a wide range of bespoke options and services, the chances are we can help.

We're XL

Proud of our craft

If there's one thing that defines an XL Joinery door, it's that we work with the best.

The best materials, and the best people.

By carefully selecting A-grade American White Oak veneers and combining this with hand matching techniques for our lippings and grooves, we ensure the highest quality finish on all of our Original Oak doors.

Attention to detail and unparalleled quality. That's what craft means to us. You'll find that craft in everything we do, across our entire range. Every single door, every single day, delivered using the best facilities and technical skills. Being backed up by regulatory compliance and professional certification, we go over and above to ensure the reputation our people have built over the years is well deserved.

We are honoured to be...

- ISO 9001 Accredited
- ISO 14001 Accredited
- Guild of Architectural Ironmongers
- Guild of Master Craftsmen Member
- British Woodworking Federation
- Door & Hardware Federation
- Building Regulations Compliant

We rely on our people every step of the way.

It's no good supplying beautiful, well made doors if we can't ensure gold standard delivery; or guarantee the kind of renowned after-sales support that has professional installers coming back time after time.

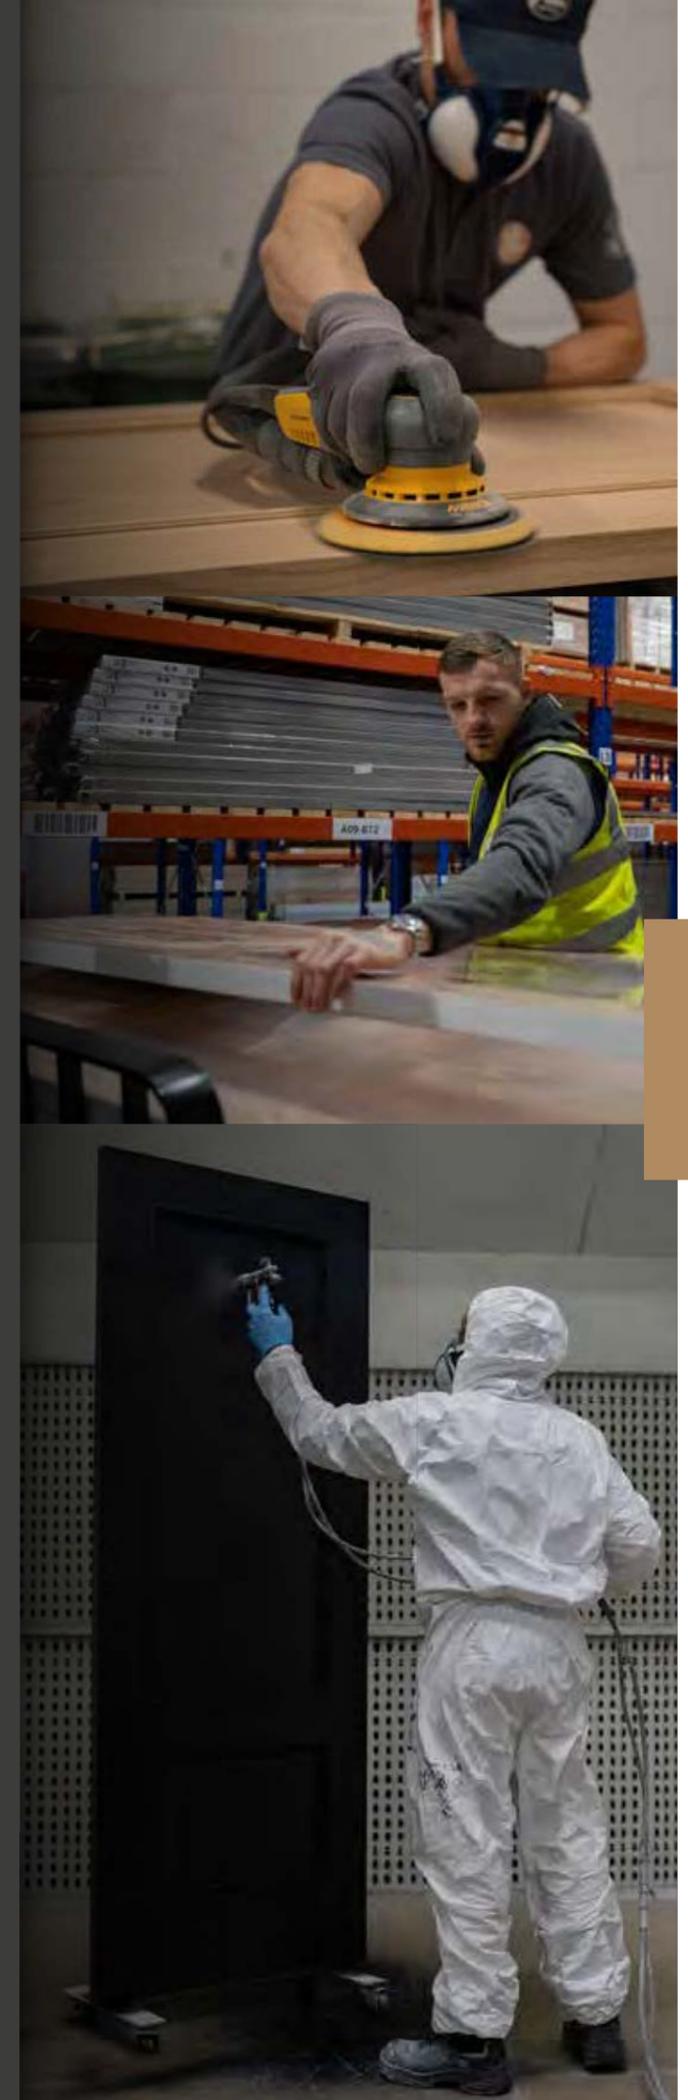

It starts with design and development, spotting fresh styles and introducing innovative new concepts. That might be the contemporary statement of a Colours by XL door, a service powered by our talented finishing team. Or it might be an on-trend room divider, creating functional spaces for families to share.

All that hard work is complemented by our technical experts, ensuring our doors are safe, sound and fit for purpose. It might not be glamorous, but achieving the correct certification and compliance is just as important to the finished product.

Fire safety is paramount to us. We are proud that all our fire doors are extensively tested and have third party certification, giving you peace of mind that our doors offer maximum safety. Compliance, thoroughly modern quality assurance, tracking and traceability, are at the core of our business.

Our West Yorkshire headquarters and distribution centre is state of the art too. We hold 200,000 doors in stock, and it takes some pretty complex logistics to ensure such a large, nationwide distribution network runs smoothly. We're pretty proud of our operation. It just works.

When it comes to sales and support, our team are right there too. Not squirrelled away in a call centre, but over the way from the workshops. If they don't know the answer, they can ask someone who does. Care and attention that's personal.

Sustainable at heart

We couldn't exist without carefully managed forests, the source of the beautiful timber every XL Joinery door relies on.

It's a vital raw material, and a vital responsibility. Illegal logging and timber production is a danger throughout the supply chain, from the communities and wildlife it displaces, right through to the unreliable quality and risk of failure for the end result.

That's not our way. Our people are proud of their work, and we'd be letting them down if we didn't do everything possible to source ethical timber, and to contribute to a sustainable future for our natural resources. That's why we've had our own FSC® Chain of Custody since 1995, and PEFC since 2014. We work closely with our manufacturing partners to ensure they share our ethical vision, following responsible forestry practices, and operating as transparently as possible.

Though it's our people that drive our focus on sustainability, it's our systems that enable real progress. Our environmental management systems comply to ISO 14001 standards.

The mark of responsible forestry

Look out for the FSC® and PEFC logos for certified products.

Certified Carbon Neutral

Responsibly managing our environment is, and always has been, a vital commitment for us. We have an obligation to combat climate change within our communities both here in the UK and throughout the world. Working with The Carbon Footprint we are celebrating another year of Carbon Neutrality.

Simply put, we are committed to offsetting all our greenhouse gas emissions through ambitious projects. We've planted plenty of trees and we've also been supporting projects in countries such as Chile and Uganda, which offer employment and fresh drinking water to their rural communities.

What's more, we've been working to reduce our output at home, transitioning to electric vehicles on the warehouse floor and introducing a raft of energy-saving measures throughout our headquarters.

Most importantly, we're not just offsetting our carbon CO₂, we're actively committed to reducing our emissions now and in the future.

Our Services

Doing things differently

For skilled joiners in years past, every job was bespoke.

Every project required something a little different. A new solution, or a challenge to be overcome with craft and ingenuity. In this era of mass production, it's important to remember that different doesn't mean difficult. Our people love different. So if you need a width or length you can't see in our collection then let us know.

Due to manufacturing complexities not all designs are available in the sizes noted above or as a fire door option.

XL Bespoke

Step 1.
Talk to one of our merchants or retailers and let them know what you are planning.

Step 2.
We'll produce a CAD drawing for you to sign off.

Step 3.
We'll manufacture your bespoke doors.

Step 4.
We'll deliver, usually 20 weeks after sign off.

Available on...

- All internal oak doors (pre-finished and unfinished)*
- All internal walnut doors
- All internal white primed

Covering...

- Standard doors (panelled and glazed)
- Fire doors (panelled and glazed)

If you'd prefer your Simpli Doorsets in Oak please contact our Sales office to discuss further.

Fire Doorsets optional extras:

- Drop down threshold (DS-DDT)
- Intumescent door viewer (DS-IDV)
- White smoke seals (DS-SSW)
- Door closer (DS-DC)
- Batwing seals (DS-BSE)
- Brown smoke seals (DS-SSO)

Benefits

Quick Fit

Everything needed for your door installation, including latches and strike plates, come pre-installed.*

Fire Door Sets

Simpli Doorsets, with all necessary intumescent strips, thresholds and closers.

Precision Machinery

Our state of the art precision machines ensure uniformity across the manufacturing process.

Fit & Forget

There is a 10 year manufacturing guarantee on the complete system.

* Excluding the handle.

See page 96 for recommended latch sizes. White Primed frames require final finishing. Doors and handles to be ordered separately.

Fire Doors come with intumescent strips pre-fitted in the linings (White on White Primed).

Product is supplied braced and ready to fit into the opening on site. Standard door linings are 25mm thick, Fire Door linings are 32mm thick.

All internal doorsets are supplied with a 13mm undercut.

Our Services

Make a statement

Be it a traditional or contemporary interior, make a bold impact and cater to your space with Colours by XL.

With Colours by XL, our skilled craftsmen handle the hard work. Spraying and finishing to the same exacting standards you'd expect of any tradesperson, and achieving the kind of beautiful finish that can make a room shine.

Simple savings, Colours by XL saves you...

Time

We take care of the labour. No time wasted sanding, priming and finishing on site.

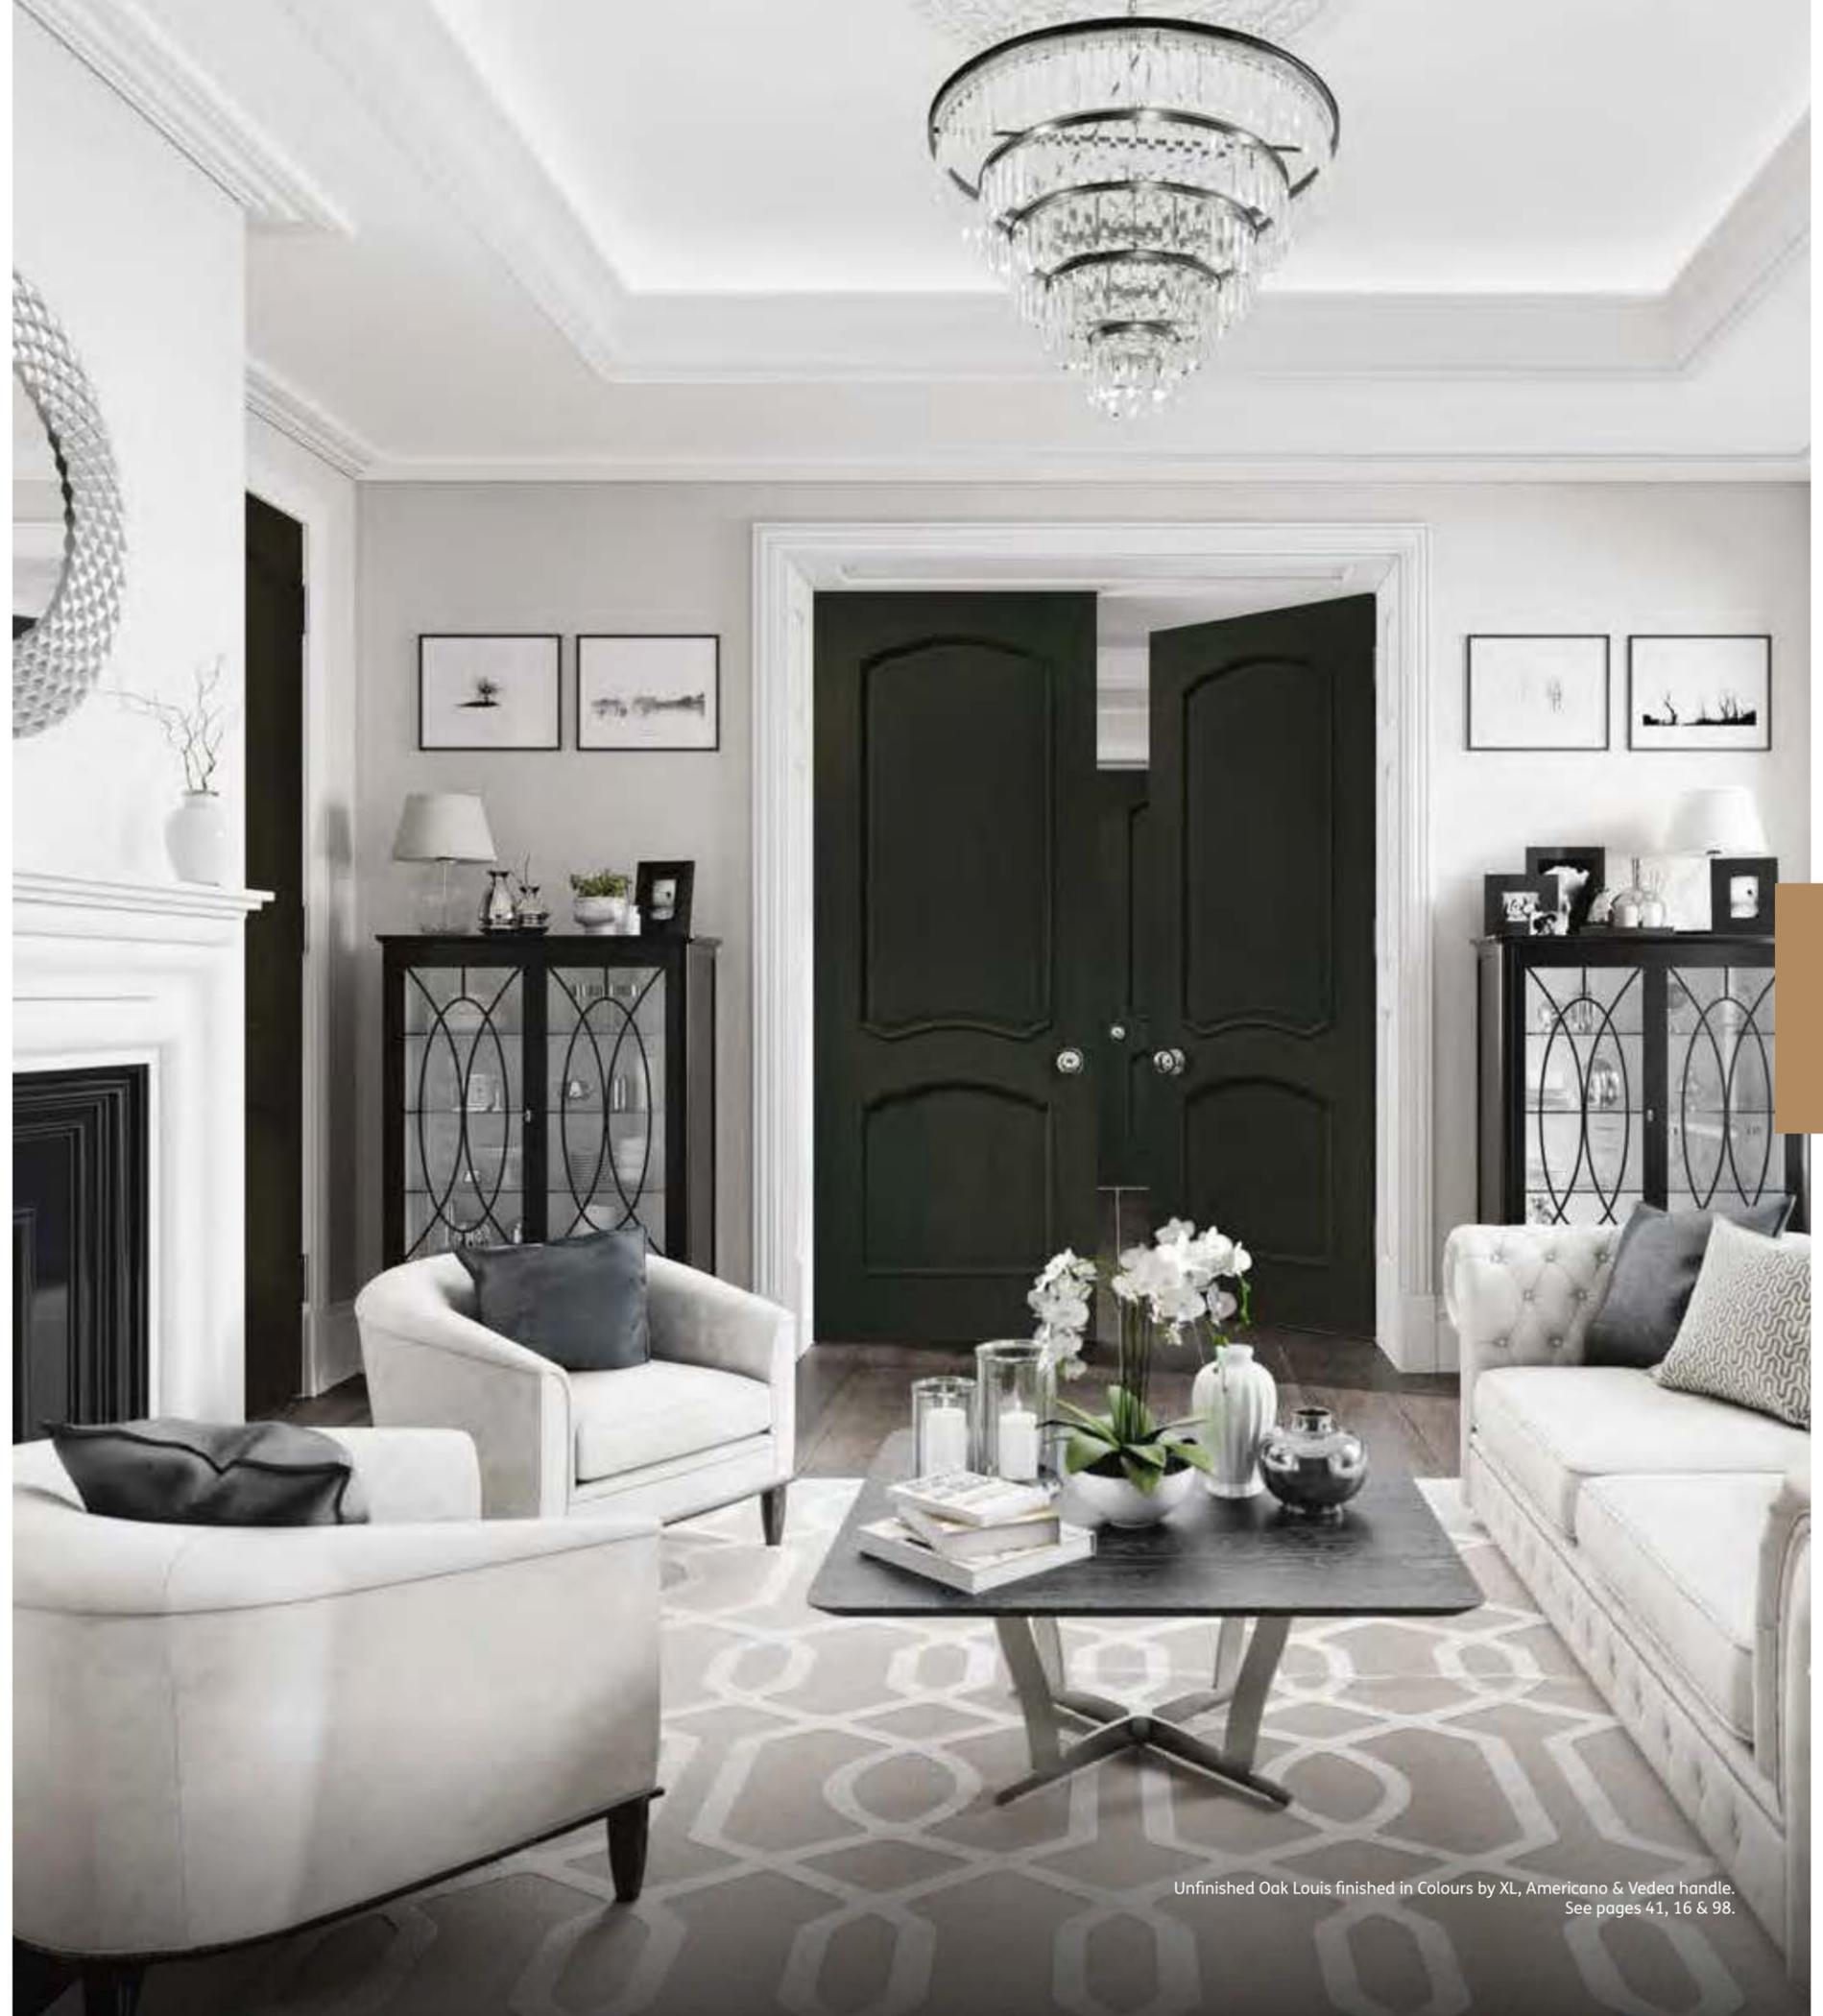

Money

We provide the paint. No extra spend on materials after purchase.*

Effort

Just choose a colour that fits your design. No fuss.

Pre-finishing is typically 2-3 weeks including delivery.
*Free touch up kit available with 5+ doors only.

Top Picks

Timeless strength and character

Our Oak Collection draws on a legacy of craft that stretches back generations. The warmth and durability of an iconic material, brought right up to date with a mix of adaptable contemporary and traditional styles. A perfect partner for any interior.

Pre-Finished Oak Suffolk Original & Vardar handle.
See pages 28 & 99.

Victorian

More at home in a traditional setting, the Victorian Oak door is a classic 4 panel design with raised and fielded panels giving the door a great deal of character and provide a greater depth to the overall look.

Shaker with Clear Glass

Combining a classic Shaker style with clear glass to give a door that will be at home in any property. The clear glass allows for a high degree of light to move between rooms.

Pattern 10

With it's beautifully simplistic singular recessed one panel design, this contemporary door has an attractive grain in the timber that when finished really comes to life.

In the interest of environmental concerns and improved performance, products contain engineered components including but not limited to laminated timber, MDF or particleboard. Natural variation in the colour or texture of wood are not to be considered as defects.

THE OAK ESSENTIALS

Featuring our most popular door designs, the Suffolk and the Palermo.

First impressions count. Including a beautiful 1 Light design and a 2XG design, with glazing that sits two thirds down the door, we have a diverse mix of door designs to keep your interior looking consistent and stylish.

Other features include:

-  Deep luxury chamfered groove designs offer greater depth to the door and make it appear more striking compared to imitators with shallow square grooves.
-  American white oak veneers for the highest quality aesthetic.
-  Engineered construction for greater stability and performance.
-  Available to bulk order and can be delivered in batches at any time, to suit the project.
-  A vast array of Fire Door sizes makes them essential for any project, and compatible with the NEW glazed Fire Doors in the Original range.

Some of these doors arrive unfinished so they can be personalised to match the latest trends.

The Unfinished Essential range is available in any one of the stains below:

*On standard solid & glazed versions

Suffolk Essential

The forever favourite and unique to XL Joinery, 6 panel Suffolk door, offers a timeless look for any property.

The Oak Suffolk Essential & Kama handle.
See pages 26 & 99.

Features include:

-  20mm Solid Hardwood Lippings*
-  Fire Door Option Available
-  Glazed Options Available
-  Available as a Doorset
-  Sound Insulation
-  Heat Retention
-  10 Year Guarantee
-  Available Pre-Finished
-  Available Unfinished
-  Available in Colours by XL
-  Vast Range of Sizes

Palermo Essential

Contemporary living at its best, modernise your home with this stunning Palermo, oak linear panelled door.

The Oak Palermo Essential & Livenza handle.
See pages 27 & 96.

Style with presence

The Rustic Oak Ledged is a traditional cottage style door, perfect for renovations, heritage interiors, and for anyone seeking the cosy warmth of this dependable and timeless classic.

This statement solid oak door combines the best modern construction methods with a material that stands the test of time, providing a real sense of presence for any interior.

And for those looking for a little more flexibility within the home, our White Primed Cottage door on page 70, represents the easiest way to achieve the finish you need, ready for painting at home or finishing in Colours by XL.

Rustic Oak Ledged finished in Clear Finish & Tiber handle. See pages 45, 16 & 98.

A next-generation 3D texture makes our Laminate Collection feel like real wood grain. The luxurious look coupled with a realistic feel, radiates splendour and premium quality.

Mode by XL Umber Grey Laminate Ravenna with Clear Glass & Torne handle. See pages 50 & 99.

Top Picks

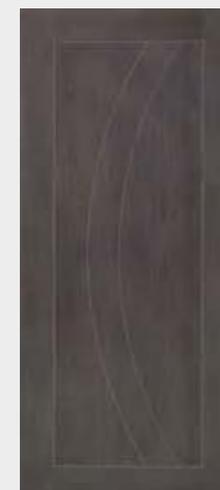

Palermo 1 Light with Clear Glass

The Palermo is one of our most popular styles, and this glazed version can help bring light and warmth to any room. Maximise the natural sunlight in your house, and create a touch of open plan living without sacrificing privacy.

Ravenna

Our most unique style. An unconventional design that is destined to elevate your home. Modern and traditional homes alike will benefit from the Ravenna's vertical and horizontal grains, perfectly balanced in this fresh door design.

Salerno

A sleek design that is versatile in function. Display as a single door for an abstract feel. Alternatively pair two together to create a striking centrepiece within any contemporary home.

Walnut

Classic style and opulent warmth

Our Walnut Collection is timeless and evokes the quality and performance of legacy furniture. The wood's depth of colour shines through, bringing a rich warmth to any room.

Walnut Ravenna & Livenza handle.
See pages 58 & 96.

Top Picks

Forli

The central panel of the Forli features a mass of horizontal grain walnut, creating real impact and showcasing this attractive and striking wood. Subtle aluminium inlays set off vertical side panels.

Varese

The Varese represents a unique combination of the traditional and the modern. A large format central panel suggests statement pieces of the past, but its aluminium inlays and elegant finish bring it right up to date.

Portici

Five panels of warm walnut, offset by vertical panels which frame and add a sense of height. Like other doors in the collection, the Portici features real aluminium inlays which help the panels shine through.

Crisp beauty and clean lines

Our White Collection combines the appeal of contemporary minimalism with the considered cleanliness of traditional styles. A singular backdrop for everything from bright and busy interiors to stripped back urban apartments.

White Primed Cottage finished in Colours by XL, Glacier & Oder handle. See pages 70, 16 & 99.

Top Picks

Shaker

Part of a design tradition renowned for rustic charm and simple utility, the Shaker is a classic addition to any interior. It could anchor a contemporary scheme, or complement the heritage notes of a refurbished property.

Portici

The five panel Portici shows off this style at its best, with clean and crisp grooves highlighting the beauty of a simple white finish. Real aluminium inlays create a sense of depth, neatly dividing the door's elegant proportions.

Worcester Clear Glass

The Worcester lends itself to glazing, opening up your room and bringing in the sunlight that helps show furnishings at their best. The pure white helps lighten any interior, with vertical panels that lengthen and lift.

A blank canvas

Stay bright and white or add some colour to suit your exact taste and styling. Either way, create your dream home with our gorgeous collection of White Primed doors, such as the Suffolk.

Our White Primed doors arrive with a basic finish on them, called 'primer'.

Primed doors are double coated and save the additional effort of you needing to prime your doors at home. They will however require a light sanding before they can be painted and are ready to fit.*

The whole White Primed range is available in Colours by XL, allowing us to take the hassle of finishing a door away from you. See page 16 for more details.

Top Picks

Adaptability and vivid variation

Our Pine Collection displays the most attractive face of the timber, exhibiting the character and variation that differentiates each and every panel.

Pine Colonial 6 Panel & Meuse handle.
See pages 87 & 98.

Vine DX

A style designed to complement faithful restorations, or to bring an element of heritage to more contemporary designs. The detailing on the panels draws the eye towards the characterful grain of the pine.

Edwardian with Clear Glass

A glazed door can help lighten a room, opening up the space beyond and bringing in natural light. This striking and substantial Edwardian version uses bevelled glass to add personality to the large, clear panes.

Rio 4 Panel

A four panel design with a difference, the Rio introduces a subtle curve across the top two panels. The large panels show off the knots and intricacies of the natural pine, with grooves that add depth and detail.

Room Dividers

Pair Makers

A simple solution for adaptable interiors.

Any pair of doors from our collections can be combined to create a striking French door using a Pair Maker, or upgrade any two doors to a fully rebated door pair using the XL Joinery bespoke service.

Oak Pair Maker

Oak Contemporary Pair Maker

White Pair Maker

Pre-Finished Oak Worcester with Clear Glass.
See page 33.

Pair Maker is attached to the slave door and acts as a rebate to the other door.

Product Description	Code	Size
Pre-Finished Oak Pair Maker	PFOAKPM	1997 x 54 x 36mm
Oak Pair Maker	OAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker	COAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker (Metric)	OAKPMMET	2056 x 59 x 41mm
White Primed Pair Maker	WHITEPM	1997 x 54 x 36mm

The Pair Maker can be fitted to either a left or right hand door. For installation apertures add 10mm to the overall width of the two doors (not including clearance).
Pair Makers not suitable for the Monza Glazed door.

Room Dividers

Pocket Doors

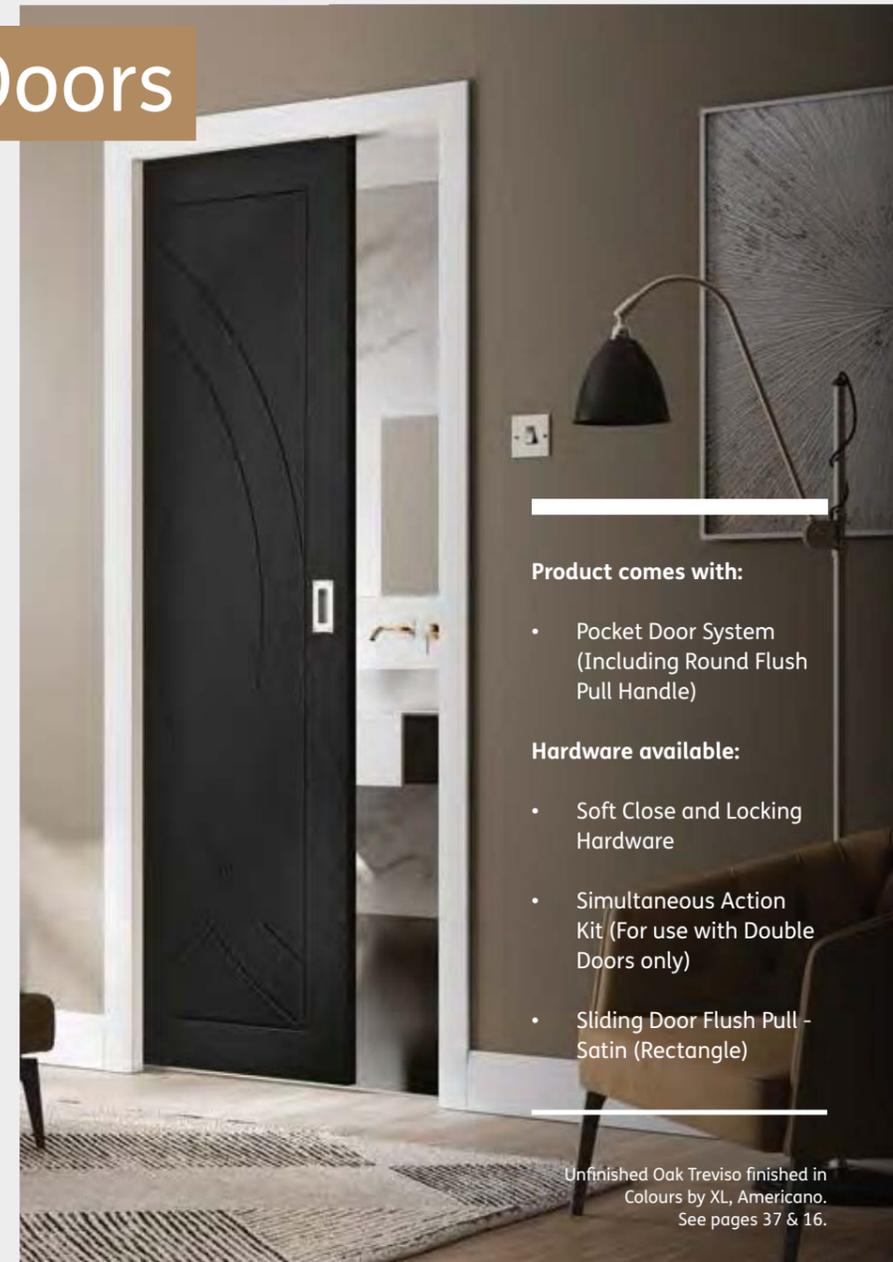

No need to compromise on quality.

Our pocket doors mean you don't have to compromise on style and quality where space is tight, such as en-suites, bathrooms or kitchens.

A double door room divider is also an option, using pocket doors side by side to portion up larger living spaces.

Pocket doors are engineered to sit within partition walls, with a pre-assembled aluminium track and header mechanism included as part of each door kit.

We've designed the system to work with most doors, with the exception of those with raised beads or mouldings and fire doors, so you can take your pick from our carefully chosen collections.

Product comes with:

- Pocket Door System (Including Round Flush Pull Handle)

Hardware available:

- Soft Close and Locking Hardware
- Simultaneous Action Kit (For use with Double Doors only)
- Sliding Door Flush Pull - Satin (Rectangle)

Unfinished Oak Treviso finished in Colours by XL, Americano. See pages 37 & 16.

Product Description	Code	Size

Pocket Sliding Door Lockset (Satin) - 30-48mm (390/s)	POCKET-3048LS	To Suit 30-48mm thick doors

Architrave and door linings are not included.

Room Dividers

Easi-Glide

Create space in even the most tasking of properties.

Our Easi-Glide system is a cleverly engineered way to create space in even the most tasking of properties. Most doors from our collections can be hung using the Easi-Glide system, with the exception of doors with raised beads or mouldings, and fire doors.

Product comes with:

- Pelmet (available in Unfinished Oak or White Primed)
- Top hung sliding door hardware

White Primed Salerno with Clear Glass finished in Colours by XL, Glacier. See pages 72 & 16.

Room Dividers

Easi-Slide

Share the same space or separate apart.

Our Easi-Slide system is a striking way to divide a larger layout, allowing for a number of unique configurations that will add functionality and transform your home. Each is available in a choice of Oak or White Primed, using the standard door sizes in our range.

The Easi-Slide comes with:

- Frame
- All sliding door hardware (excluding handle)
- Pair Maker

Pre-Finished Oak Pattern 10 with Clear Glass.
See page 38.

Product Description	Code	Size
Oak Sliding Door Frame - 2pcs (includes hardware kit)	OSLIDEF	2090 x 3500mm
White Sliding Door Frame - 2pcs (includes hardware kit)	WSLIDEF	2090 x 3500mm

Only available on 35mm thick doors.
Easi-Slide components are made from FSC®- certified and other controlled material.
The White Easi-Slide is double coated and ready for final finishing.
Please include the Pair Maker thickness in your frame width calculations (12mm).
Frames will need to be cut down on the height as well as the width as allowances have been made for different types of floor coverings.
If using obscure glazed doors, ensure that the glass is facing the correct way prior to fitting.

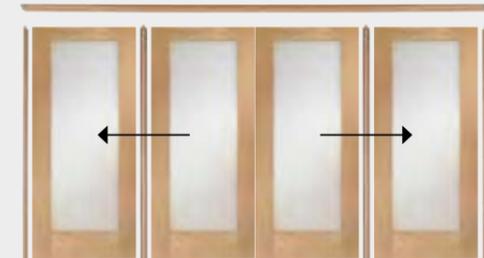

How to Order

- Step 1:** Measure your opening
- Step 2:** Choose your door style
- Step 3:** Decide on the configuration

Option 1

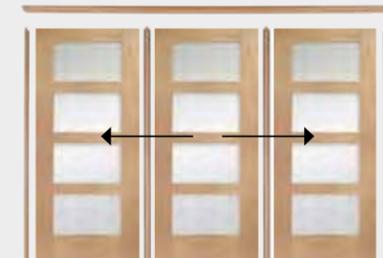

2 fixed sidelights and 2 opening doors

Possible door width options:
838 + 838 + 838 + 838mm
838 + 762 + 762 + 838mm
610 + 762 + 762 + 610mm

Option 2

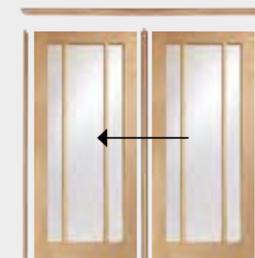

2 fixed sidelights and 1 opening door

Possible door width options:
610 + 762 + 610mm
610 + 610 + 610mm
762 + 610 + 762mm

Option 3

1 fixed sidelight and 1 opening door

Possible door width options:
838 + 762mm
838 + 838mm
610 + 762mm

Easi-Frame

Add functionality and transform your home.

Our Easi-Frame system unlocks a wealth of configurations for room dividers, complementing the doors on our interior collections with a flexible and comprehensive framing structure. Available in Oak or White Primed.

Create the look:

1. 2 Oak Worcester Glazed Doors with 2 Semi Panels
2. 2 Oak Shaker 4 Light Doors with 2 Demi Panels
3. Oak Pattern 10 Glazed Door with 2 Semi Panels
4. White Primed Shaker 4 Light Door with 2 Demi Panels
5. 2 White Primed Pattern 10 Doors with 2 Semi Panels

Product Description	Code	Size
Oak Easi-Frame	OEASIF	Max Size - 2017mm x 3000mm
White Easi-Frame	WEASIF	Max Size - 2017mm x 3000mm

When choosing the correct products to be fitted into our Easi-Frame, please bear in mind that this frame has a rebate of approx. 35mm and therefore none of our 40mm-44mm doors can be fitted within this frame.

Easi-Frame components are made from FSC®-certified and other controlled material. The White Easi-Frame is double coated and ready for final finishing. Frames will need to be cut down on the height as well as the width as allowances have been made for different types of floor coverings.

Freefold

Our Freefold system allows for true flexibility.

Providing the option to either fold or open all doors in a divider. The result is a large, open plan space which can quickly be divided by whichever style or design suits your home. Available in Oak or White Primed.

1

Create the look:

1. 4 White Primed Pattern 10 with Clear Glass
2. 4 Pre-Finished Oak Pattern 10 with Clear Glass

2

Products are not handed (left or right) therefore options are also available in their mirrored versions. Freefolds include: Oak veneered frame or double coated White frame (heads, jambs and stops), surface floor mounted track, all hardware (except handles).

Recommended doors for the Freefold

(Doors need to be ordered separately - suitable for 24" doors only)

Doors
Exterior

External collection

Enduring presence and stylish expression.

Our External Collection features styles to suit any property, creating a striking entrance to your home. From contemporary, linear styles to conservative options with a reassuringly weighty presence, our doors are crafted to last, using traditional methods that stand the test of time.

External Tricoya Modena Finished in Moss Green. See pages 105 & 104.

EXTREME

MEDITE® tricoya

All our doors depend on the quality and performance of the materials used to craft them.

There's a reason why woodworkers staples like oak and pine remain so popular. But a respect for tradition doesn't ignore the best of modern engineering. That's why we're proud to introduce MEDITE TRICOYA EXTREME, a remarkable option for our external collection.

MEDITE TRICOYA EXTREME is a new class of engineered wood, created with first class durability and the kind of stability that external doors need to stand the test of time. As an engineered material, MEDITE TRICOYA EXTREME is easy to work with, achieving a flexibility that makes it suitable for any design.

But with exterior doors, performance matters above all. And MEDITE TRICOYA EXTREME makes the grade in every way. No swelling when wet, excellent decay resistance, and no cracking or delamination after freezing and thawing cycles. Everything an exterior door requires.

External Tricoya Malton with Screen Printed Glass
Finished in Pale Green.
See page 105.

Colours available

Please note: Whilst we've made every effort to ensure the doors displayed on this page match the colour on our Tricoya doors, we can't guarantee a complete match with the finished RAL colour. We recommend you request a colour swatch before ordering.

Important information

Warranties

PLEASE READ THIS PRODUCT WARRANTY BEFORE YOU INSTALL ANY OF OUR DOORS. IN PARTICULAR, PLEASE NOTE THAT YOU MUST COMPLY WITH CERTAIN INSTRUCTIONS RELATING TO ITS INSTALLATION AND MAINTENANCE TO BE ABLE TO CLAIM UNDER THIS PRODUCT WARRANTY.

We are pleased to offer the following warranties on our doors:

- Limited 30 year warranty on Oak Statement Suffolk and Oak Statement Palermo doors.
- Limited 25 year warranty on Oak Original Suffolk and Oak Original Palermo doors.
- Limited 10 year warranty on both External and Internal Oak, Walnut, Laminate, White Primed and Hardwood Doors.
- Limited 5 year warranty on Handle Packs, general wear and tear is not covered.
- Limited 1 year warranty on Frames, Linings, White Moulded Doors, Pine Doors, Gates and Crysta-Glas.

The appearance of field finished doors/gates is not warranted in any event. Natural variations in the colour or texture of wood shall not be considered as defects. Warp, twist cup or bow shall not be considered a defect unless they exceed the following tolerances: Warp, 6mm in the plane of the door/gate itself; Cup, 2mm across the width of the door; Bow, 4mm along the length of the door/gate. Any warranty against warp does not apply in any event to the following: all doors/gates which are wider than 914mm, or higher than 2,134mm doors/gates that are improperly hung or do not swing freely. Delamination caused by failure to protect and seal all exposed surfaces of the door/gate/lining/frame including failure to lacquer top and bottom edges of the door/gate. In respect of doors/gates covered by this warranty, the manufacturer may, as its option and in its sole discretion, either issue a credit note for the door(s)/gate(s), repair the door(s)/gate(s) without charge or replace the door(s)/gate(s) without charge, in the same state of fitting and/or finishing as was originally supplied and the manufacturer shall have no further liability whatsoever to the purchaser.

Please note: Natural variations in the colour or texture of wood shall not be considered as defects and therefore will not be covered by the product warranty. We recommend that doors are purchased in plot orders to minimise variation.

This warranty extends and is available only to the first retail purchaser of our doors and is not available and may not be enforced by any person to whom such product(s) are transferred by such a purchaser.

The following must be carried out. Failure to do so will invalidate your warranty/return:

Handling and Storage

- Doors must be examined immediately. Any damages or defects on the door must be reported on delivery.
- Once a door has been worked upon, it is deemed the sale has been accepted and therefore cannot be returned.
- Doors should always be stored flat inside on 3 bearers. Ideally in the same room where they are to be installed and within their packaging to protect them from damp and dirt until they are ready for finishing and fitting.
- Doors should not be fitted where extremes of temperature or humidity may occur, e.g. round new concrete, in a newly plastered room or near a sauna. This is because it will have a very high humidity level until dried and ventilated. Gentle internal heating and good ventilation will help reduce the problem.
- In new build situations the doors should only be fitted when wet trades have departed, sufficiently dried and the property is ready for final decoration.

Trimming and Finishing

- All of our products should be treated with a coat of finish as soon as they are taken out of their packaging, offered up, cut and then fully finished to prevent moisture absorption prior to final fitting.
- When applying the finish pay particular attention to sealing the timber end grain on the tops and bottoms of the doors: Ensure that all lock, latch, letterbox (if applicable) and hinge cut-outs are also fully treated.
- Failure to treat all the timber surfaces may lead to excessive changes in moisture content which will cause the timber to shrink or swell, possibly causing splits and distortion. All bare timber surfaces require finishing before installation.
- Our Pre-Finished doors will require any bare timber areas caused by trimming and cut outs made for hardware to be adequately treated before final fitting. Should a door require any trimming or alterations, they must be immediately re-treated to prevent moisture absorption which can lead to splitting and warping.
- Please refer to the door label or the product page on the website www.xljoinery.co.uk for instructions on the number of coats to be applied and the recommended treatment.
- When trimming an internal or external door, please refer to the product information on our website www.xljoinery.co.uk or the label on the door. This will indicate how much can be taken from the door. Please note any reduction must be removed evenly from each side.
- Bi-Folds are supplied with a track and folding hardware and cannot be trimmed.
- Clear translucent coatings are not recommended for external doors as the timber may discolour through UV degradation.
- White Moulded and White Primed doors require a top coat after fitting. They are only suitable for painting.

Installations

Internal Doors

- Three hinges must be used to hang the doors.
- Latches and locks should not be fitted adjacent to door mid-rails where the joint maybe compromised.
- All hardware screw holes should be pre- drilled to prevent any timber splitting.
- Fire doors have individual fitting guidelines and the installer must refer to the Global Assessment Report referenced on the front of the fire door label.
- Rebated Door Pairs are supplied with separate instructions for fitting and trimming.

External Doors

- Three hinges must be used to hang the doors, four hinges for Stable doors.
- External doors must have a weatherbar or rain deflector fitted to ensure that water runs away from the face and bottom edge of the door. Stable doors require a weather bar at the bottom of the face on each half leaf. These should be suitably fitted and sealed across the top where they meet the door face.
- A drip bead should be fitted to the frame head to prevent moisture ingress to the top edge of the door.
- All hardware screw holes should be pre- drilled to prevent splitting of the timber.
- Latches and locks should not be fitted adjacent to door mid-rails where the joint may be compromised.
- We recommend letter box cut outs are not made through vertical panels as this could lead to moisture ingress and/or failure of the product.

- In areas of severe exposure, external doors should be protected by a canopy or porch in addition to recommended finishing, with extra coats of finishing to be applied.
- Sidelights are supplied with separate instructions for fitting/trimming.

Maintenance

- To prolong the natural beauty of the door, our doors should be checked annually and kept clean by regularly wiping the surface down with a clean damp cloth.
- To renew the lustre of the finish and ensure the product is fully protected, top up coats must be applied when the original finish looks a little tired or worn.

Please note: Under our warranty, liability is limited to replacing the door alone. XL Joinery shall have no further liability whatsoever to the purchaser for any consequential costs. Any structural alteration of an XL Joinery door will void the warranty.

For further details with regards to our warranties and terms and conditions, please visit our website:

www.xljoinery.co.uk/terms-conditions

You will also find a comprehensive overview on handling and storage, trimming, finishing, installation and maintenance for all our products, on our website and on the back of the labels. Please ensure you read these in full before installing our products.

Exclusions

This warranty does not, in any event, cover the following:

- Periodic check-ups, maintenance and repair or replacement of parts due to normal wear and tear.
- Cosmetic damage, including but not limited to scratches and dents.
- Costs relating to transport, removal, or installation of the product.
- Malfunction or damage caused by any cause not attributable to the manufacturing, design, or installation of the product (including but not limited to fire, water, neglect, improper use etc).
- Abuse or misuse, including but not solely limited to the failure to use this product for its normal purposes or in accordance with XL Joinery's instructions for usage and maintenance.
- Failure, damage, unsatisfactory service or appearance, or any other defect caused by failure to follow recommended handling, fitting, finishing and maintenance instructions.
- Any structural alteration of the product.

How to claim

Any claim under this warranty must be made to the retailer, who will discuss your claim with XL Joinery. Claims made under this warranty are only valid if the product warranty has been registered with us or upon presentation of proof of purchase of the applicable product. We may request proof of purchase from you if traceability through the relevant retailer is not possible, or if XL Joinery cannot identify the product as being an XL Joinery product.

Limitation of Liability

To the maximum extent permitted by applicable national laws, this warranty will be the customer's sole and exclusive remedy against XL Joinery. XL Joinery's liability is limited to replacing the door alone. XL Joinery shall not be liable for any consequential or indirect loss arising in connection with the product. Insofar as XL Joinery's liability is excluded or limited this shall also apply to its employees, staff, representatives, and agents.
